New Leaders Elected Across the Globe

The people of the world have spoken. In the wake of the first ever global election new leaders were selected for many countries in the world. The new leaders of the world were set to bring hope to the people of the world. The people of the world are hoping to have jobs, better living conditions, and security and safety from oppression.

Global election results in!

TERRORISTS or FREEDOM FIGHTERS???

For as long as people have been invading other countries, the population of conquered lands have resisted and worked to drive the conquerors out of their land.

There are many historical examples of highly effective groups resisting oppressive forces. The Mujahideen Islamist Afghan fighters in the Soviet–Afghan War which fought to free their country from the invading forces of Russia (then the Soviets) and have now extended to other jihadist groups in various countries. There were also resistance movements during World War II which occurred in every occupied country. They used a variety of means, ranging from non-cooperation to propaganda to hiding crashed pilots and even to outright warfare and the recapturing of towns.

There are reports of Freedom Fighter Groups forming in Japan as they are being ruled by someone other than the government the people of the country have chosen. The Japanese government has tried to crack down and arrest these freedom fighters, but the more they try to stop these people, the more people join the

Resistance Fighters

cause. The Freedom Fighters have declared they will continue to cause disturbances for their Imperialist rulers.

They chant - "Down with the Imperialists!"

There has always been debate on what to call these groups. Are they Terrorists or are they Freedom Fighters? It ultimately comes down to perspective. Those who these groups are working against label them as terrorists and those that they are helping call them freedom fighters.

Ultimately you must decide for yourself which side you are on.
