Groups

Type Active activity that can be done anywhere.
Works on introducing people to each other and learning things about them.

Group Size Any group size.

Equipment None.

Objective For people to find out some new things about each other.

Rules

1. With the entire group standing in front of the facilitator, announce that you want everyone to get into groups according to their favorite ice cream flavor.
2. Once everyone is in a group, there may be some people on their own, everyone in the group needs to introduce themselves to each other and then one group at a time indicates the ice cream flavor that they represent.
3. Other groupings could include:

- Same type of toothpaste
- Favorite sport
- Everyone who likes the same color.
- Favorite type of music.
- Favorite television show
- Favorite food (pizza, hamburgers, etc)

Variations

1. One variation that can be interesting to watch is to tell them to make the groups without any verbal communication at all. Try to stick to categories like sports or animals for this one.

Notes

- Keep your eye out for anyone who consistently puts themselves apart from the others during this activity.
- If you have someone who doesn't seem to be joining any groups, you should stop this activity and move onto one that will facilitate everyone being together and involved.
