Hydraulic or Pneumatic Power Machine Project

Using syringes, tubing and glue guns and anything else you need, you must make a device that can accomplish a task using hydraulic or pneumatic power.

We will provide the syringes, glue guns and tubing. You have to provide everything else.

You are allowed to work in pairs or lay yourself. You will only get 2 syringes per person.

You must have a diagram of your device before you are given any material from us.

You must also have all your other material before we give you any material from us.

Hydraulic & Pneumatic Power Machine Criteria

Criteria Specifics	Self	Teacher
Does the job identified		
Relies completely on hydraulic or pneumatic power		
Sturdily built		
Had an effective plan		
Used provided work time effectively		
Completed the project by the deadline
